For more information on *keeperCare*, please click <u>here</u>

keeperCare is a Vocational Resilience Network of the Jaffray Centre that brings people together around issues that International Workers face as they serve in an increasingly challenging world. The new normal global reality calls for a more intentional examination of the issues related to service and ministry in the 21st century.

If vocational resilience and the development of a caring community for global workers (member care) is of concern to you, contact Ron at ronbrown@ambrose.edu

Sponsored by the Jaffray Centre | www.jaffrayglobal.com
