**Missions work has changed in the 21st century. Here in Canada, we're developing innovative approaches to sharing the gospel within our own nation. Join Dr. Narry Santos, Dr. Robert Cousins, and Rev. Thich Truong for an evening of coffee and conversations as we reflect on how God's Kingdom can be advanced in Canada through collaborative partnerships.**

Narry Santos came to Canada from the Philippines and has been instrumental in the development of six new churches across Canada. In partnership with Robert Cousins, Director of the Tyndale Intercultural Ministries Centre, he has created innovative training initiatives for leadership development in the local church. Thich Truong loves reflecting on how to engage his generation in mission. He has been involved in church work in Ottawa where he created pathways for his local congregation to reach into the neighbourhood and participate in intercultural relationships and ministries. Together, these three thought leaders offer a perspective that will inform and enrich your ministry.

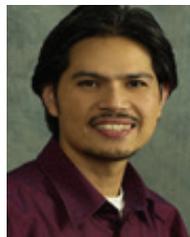

If you've still got questions after our evening together there will be an opportunity to continue the conversation. Join us on Tuesday, June 20, from 10 am - 12 pm on campus to connect and share more ideas.
